MANAGEMENT AND FINANCIAL

REPORT

Sailing is necessary

Old sailors had a glorious phrase:

“Sailing is necessary; living is not necessary”.

I want for me the spirit of this phrase,
Its manner transformed to match what I am;

Living is not necessary; necessary is to create.
I don't expect to enjoy my life; nor do I think in enjoying it.

I just want to make it great,
Even if for that my body (and my soul)
Will have to be the wood of that fire.

I just want to make it of all mankind;
Even if for that I would have to lose it as mine.
Increasingly so I think.

I increasingly put the inner essence of my blood
The impersonal aim to elevate the motherland
And contribute
For the mankind evolution.

This is the way that took in me the mysticism of our Race.

[Note of SF "*Navigare necesse; vivere non est necesse*" -Latin phrase of Pompey, Roman general, 106-48 B.c., said to the sailors, frightened, who had refused to travel during the war, cf. Plutarch, Life of Pompey in] Poem of Fernando Pessoa, in" Poems of Fernando Pessoa"

MANAGEMENT AND FINANCIAL REPORT 2013

INTRODUCTION

In 2013, the activity developed by Rui Cunha Foundation consolidated its establishment in the Macau society developing concepts already initiated during the first eight months of its existence, in 2012, and implemented new forms of intervention, either in defense of the Macau Law , or in support of the People of Macau.

The growing public recognition, although still far from the natural ambition of the Founders, the Board of Directors and the entire structure of the Foundation, allows us to infer the correctness of the delineated path to fulfill the creation of the Foundation Rui Cunha purpose, well reflected in its statutes "*... to contribute to the development of the identity of the MSAR legal system, individual and autonomous, the people of Macau and their unique culture, intervening philanthropic and culturally in the civil society*".

SUMMARY OF THE ACTIVITY DEVELOPED

Recognizing that the financial situation of the Foundation is correctly reflected in its financial statements, all the more so because the same were audited by the Statutory Auditor, and also because it is a direct consequence of the activity which has been developed throughout the year, we consider important to disclose the set of actions and events held throughout the year by the different organizational areas.

Patrimonial, Administrative and Financial Management

2013 was characterized by a collective effort of its employees to improve the internal operation of the Foundation in order to answer to the needs of the Macau society, whether in the support of the Law of Macau, or in relation to the culture and to the social needs.

The result of this effort can be assessed by the accomplishments in this area, listed below in a synthetic way:

- ✚ Consolidation of the organizational structure of the Foundation;
- ✚ Recruitment of employees to complete the minimum of staffs necessary to ensure its operation;
- ✚ Completion and availability of sites that promote the Foundation and allow interaction with the visitors and users (www.ruicunha.org e www.creddm.org);
- ✚ Installation of the structured computer network with the necessary servers and backups to ensure the internal operation;
- ✚ Equipping the CRED-DM library with the necessary resources for its functionality, whether human or material, namely, computer software;
- ✚ Improvement of the accounting organization, to allow its use as an instrument to support the management;
- ✚ Execution of the necessary works on the ground floor to provide working conditions to the SAEP external translators who support the Foundation in the simultaneous translation of the events;

The Foundation, at the end of 2013, counted with 10 employees, namely the hiring of a translator after a long waiting period for approval by the authorities. As a matter of fact this staff allowed a reduction of the deadline for the execution of books and articles and reducing in a remarkable manner the respective costs.

In financial terms, the Board of Directors decided to diversify the currencies of its investments, which allowed, with a currency risk followed closely by the management, to obtain a better rate of return on the equity invested.

FINANCIAL STATEMENTS

The Financial Statements are constituted by the Balance Sheet at December, 31, 2013 and the Demonstration of the Results obtained throughout 2013.

In summary, the Foundation's financial situation, although slightly affected by the negative results of its operation, remains very healthy, because its net worth is higher than the Social Funds that the Founders put at its disposal, as a result of the donations of its Founder, in financial and in-kind resources.

Comments to the Balance Sheet:

- The balance sheet, as above listed, shows that the net assets of the Foundation, which at the end of the previous financial year was Mop 11.246, 938.33, grew to Mop 21.242, 715.17, almost doubling, as a result of the increase of the Social Funds, fulfilling the statutory determination of their annual increase of Mop 10,000,000.00 up to the total of 50 million Patacas;

- The bank deposits in the amount of Mop 19.319, 070.88, correspond to 91% of the net assets, and from these, 97.6% are applied to term;
- The fixed assets amounts to Mop 2.183, 878.52, but 14% of this amount has already been amortized, totaling Mop 306, 903.65, by which the net value of fixed assets is now Mop 1.876, 974.97;
- The value of the liabilities is only Mop 105,303.09, related, most of it, to the costs whose settlement was only possible in the fiscal year of 2014, but belonging to the 2013 financial year, have been properly allocated as costs this year, resulting from the application of the principle of specification of the year accounts;
- In addition to the Social Funds, whose value lies in the 20 million Patacas, were still donated Mop 1.427,595.00, through the acquisition of property, plant and equipment and payment of costs of installation directly by the founder;
- The profit or loss for the financial year was negative, in the order of 358 thousand Patacas, absorbing the positive outcome from the previous financial year, which means that the Social Funds are still intact, although this results, and that the donated funds have suffered an erosion of 12%.

Comments on the Profit and Loss Accounts:

- In addition to the Annual Operating Results, which are presented and commented here in, the Foundation started to disclose monthly on its site the Monthly Results, so that everybody can follow, with maximum transparency, the evolution of its economic situation;
- The Income reported at the end of the financial year, reached Mop 3.322, 050.00, having, as main source, rents resulting from the contributions provided for in article 9 (b)) of the Statutes (monthly rental value of 3rd, 4th and 5th floors of the building located at Avenida da Praia Grande No. 759, in Macau, where C&C Lawyers office is installed), rents that at the end of the year under review totaled Mop 3.000, 000.00;
- In addition to the abovementioned Rents, it is noted that the Founder has provided financial support to the operation, in the amount of Mop 300,000.00;
- We kept, in this year, the policy of not selling the law publications organized by the CRED-DM, such as "Legisiuris" and "Thinking Law". This policy will be changed slightly in 2014 in order to reduce the high costs entailed;
- Regarding the publication of CRED-DM Notebooks, Books, Lecture Notes and Dissertations, the strategy was to sell them at very reduced prices, regardless of these editions selling to disadvantage, because the Foundation's understanding is that their publication are an essential contribution to the Study and Dissemination of the Law of Macau;
- Other activities carried out by the Foundation didn't generate any income, since that was the strategy decision designed for 2013, intending to maintain this decision as long as it will be financially bearable;
- In relation to the income of the financial investments, they almost increased five-fold, reaching Mop 171,195.71, in result of the increased availability of financial funds from the increase of Social Funds and the diversification of financial investments, particularly in CNY, taking into account the very low Patacas rates;
- As for the Total Cost, it more than tripled, rising from Mop 1.211 753.49 to Mop 3.945, 528.04. The major cost items presented the following evolution:

	2012	2013	Evolution %
Administrative Costs	184,200.35	319,022.92	173%
Production Costs	545,151.31	1,602,939.90	294%
Staff Costs	391,657.66	1,805,005.84	461%
Amortizations	90,744.17	216,159.38	238%
Average Growth of the Costs			326%

This enormous growth of costs was due not only to the full annual period, as in the previous year there was only 8 months of activity, but also to the accelerated growth of the activity and event production and hiring staffs. As for the amortizations, their growth results from the fact that only this year the assets have completed a year of lock-up;

- In relation to accounting headings, the more significant were:

○ Costs with Salaries and Wages	1,513,115.79
○ Graphic Design	361,700.00
○ Advertising	239,439.75
○ Shared Costs with External Projects	206,087.77*
○ Translations	187,289.67

*Almost all this value corresponds to the costs with the formation of the Young String Orchestra Rui Cunha Foundation, in partnership with the Star Music Center.

- With regard to the budget approved by the Board of Directors for the year, it is noted that, in particular the costs, but also the income, were below the* budgeted, and that the Final Result achieved was considerably more favorable, although negative (Mop 357,762.07), because it was only 27% of the expected negative result of Mop 1.345, 432.26.

** Purged from costs and income consigned referent to projects that failed to materialize.*

In Summary:

The decline in the Operational Result by about 531,000 Patacas comparing to the previous year (from a profit of about 173,000 Patacas to a loss of 358,000 Patacas), corresponded to an increase of costs not matched by the growth of income, notwithstanding the financial support to the operation provided by the Founder.

This growth in costs was due to a substantial increase in the activity and its reflection in the respective costs, growth that was accounted for in the annual budget approved by the Board of Directors.

The negative result obtained was substantially lower than expected, and reflects a strategy set by the Board of Directors of making as much effort as possible to meet the objectives of the Foundation to promote the Law of Macau and Support its People, always without any advantage or external support.

Thus, the results for the year, being negative in Mop 357,762.07, will transit to the retained earnings account of next year.

OPINION OF THE STATUTORY AUDITOR

STATUTORY AUDITOR'S OPINION CONCERNING the FINANCIAL YEAR 2013

According to what is established in the Statutes, I present the opinion about the management report and the accounts for the financial year 2013.

Completed the examination of the accounts, the supporting documents and their financial statements (Balance Sheet, Profit and Loss Statement for the Year, Notes to the Balance Sheet and Profit and Loss Account and the Administration's Annual Report) for the year ended in December 31, 2013, I am of the opinion that the aforementioned elements are properly prepared.

I could thus conclude that for all the materially relevant aspects, the financial situation of the Foundation and the results of its activity for the period referred to above are properly reflected.

Not having any notice that there has been any non-compliance statutory legal, and, whenever requested, and having obtained all the elements, information and clarifications about the bookkeeping of the Foundation, I believe that **the report and accounts for the financial year shall be approved in accordance with the requirements of Article 23 of the Statutes.**

“The silent gratitude never serves anybody”

To Macau and its people, and in special to our collaborators that with their effort, dedication and solidarity build this organization whose purpose is the public interest, Rui Cunha Foundation expresses its most heartfelt

GRATITUDE!!

The Growth of the Humility

Bend and you will remain erect
Let it twist and you will remain firm.
Be humble and you will stay upright.
And then what is muddled may know the order.
And what is incomplete will be replete;

Hence, if you become flexible you will be able to keep the posture.

Empty the spirit and you will remain replete;
Develop the understanding and you will be renovated.
The one that has fewer wishes will see them fulfilled;
The one that has too many, deflects from the main.
Simplicity comprises wisdom;
Too much knowledge leads to doubt and unease.
In doing so, the sage embraces the Unity
And becomes model to the world.
Avoids exposing himself and therefore excels;
Doesn't assert and for that reason stands out.
Doesn't flaunt merit and so it is credited to him.
Doesn't extol brandishing the success;
Hence he resists and becomes respected
Doesn't condescend in self-indulgence;
Thus achieves superiority.
Doesn't compete with anyone;
Thus, nobody rivals with him.
As the saying goes:
Be humble and you will stay upright! (coherent)
Maintaining the integrity, everything will flow spontaneously.
